

Evaluating Fiverr Freelancers Checklist

- ✓ What, exactly, is included for the \$5?

Always double check the details so you know what you're buying.

- ✓ How long has the person been a member of Fiverr?

You're looking for someone who's been an ACTIVE member for several months at least.

- ✓ Does the person have a good reputation on Fiverr?

The first thing to look at is the percentage that's listed next to the freelancer's advertisement. This tells you how many good ratings the freelancer has received.

- ✓ Does this person have positive comments from past employers?

You can also check the freelancer's reputation by reading the comments on his or her wall.

- ✓ Is the freelancer a top-rated seller?

- ✓ What is the turnaround time?

If your task is urgent, be sure the freelancer is able to accommodate.

- ✓ Is the service new? If so, is it popular?

You'll see near the bottom of the gig how long the freelancer has offered this particular service. If the freelancer has offered it for several weeks (or better yet, several months), you'll feel confident the freelancer can handle the workload.

- ✓ Are the samples in the profile free from errors or mistakes?

- ✓ Does this freelancer have experience in your type of business or niche?

- ✓ What are the terms if you need revisions or edits?

- ✓ What separates this freelancer from similar freelancers offering the same service?
